A UX Designer with 3 years of professional experience, blending engineering expertise with creative vision to craft innovative and inclusive solutions that address complex problems and induce joy into the lives of users.

WHERE I'VE STUDIED

UNIVERSITY OF CALIFORNIA, BERKELEY

Master of Design (UX for Emerging Technologies)
Expected graduation Dec 23

Aug 2022
Present

VELLORE INSTITUTE OF TECHNOLOGY, VELLORE

Electronics and Communications Engineering
June 2020

Aug 2020
Jun 2022

AWARDS I'VE RECEIVED

GRAND PRIZE - MIT MEDIA XR REALITY HACKATHON

1st place out of 70 teams
Jan 2023

MDES SHOWCASE AWARD

Won for a speculative design project
Dec 2022

WHAT I KNOW

Wireframing
Rapid Prototyping
Design Systems
UI/ Visual Design
Storyboarding
Research & Strategy
Speculative Design
Usability testing
Information architecture

Jan 2020
Jun 2020

WHAT I USE

Figma
Sketch 3
Axure RP
Zeplin
Fusion 360
Adobe Illustrator
Adobe Premium Pro
Photoshop
inVision
HTML/CSS
Javascript

Aug 2022
Dec 2022

Oct 2022
Nov 2022

Jul 2017
Jun 2020

EXPERIENCE I'VE GAINED

• XR DESIGN TEACHING ASSISTANT | UC BERKELEY Berkeley, CA

Design, develop, and implement weekly classes for over 60 students in XR Design resulting in mastery of the subject.

• UX DESIGNER | AMADEUS Bangalore, India

Designed, developed, and implemented the e-ticket exchange portal for 30,000 airline agents of Air Canada and Southwest, which lowered agent handling time by an average of 3 minutes and significantly reduced investments on training agents.

Architected a new agent desktop with the Director of Engineering that is expected to cut the agent processing time by more than 30% once implemented.

Created and established a new channel involving Airline Agent Trainers for user research and testing that reduced the testing costs by 17%.

Organized a series of global events which led to appreciation of UX in the company and a creation of a 5 person team in Amadeus, Bangalore.

• QUALITY ANALYST INTERN | AMADEUS Bangalore, India

Developed a library for Air Canada that will automatically capture the website performance data based on a customer's interaction and simultaneously populate it on the analytics dashboard for easy understanding and interpretation.

PROJECTS I'VE COLLABORATED ON

• KARIGAR | PERSONAL PROJECT FOR SOCIAL IMPACT

A platform to connect marginalized artisans to the global handicrafts community, resulting in the preservation of heritage crafts and the empowerment of artisans.

• DECODING DATA CAPITALISM | MDES - UC BERKELEY

A speculative design for an XR headset that provides an alternative to today's economy of surveillance capitalism by giving users control over personal data commodification.

• MAKE A DIFFERENCE (MAD) | VOLUNTEERING FOR AN NGO

Designed, developed, and implemented weekly classes for over 80 high school students resulting in the education and empowerment of students.
